Theresa Posani, RN, CNS, CMSRN, PhD(c)
Director of CERD

Medical Center of McKinney McKinney TX

Day 1	Day 2
Multisystem Issues	Cardiac
Endocrine/ GI	Pulmonary
Musculoskeletal	GU/Renal
Neurological	Professional Nursing Issues, Standards, Legal/Ethical

Program Description: This is a two day course intended to increase the level of confidence of adult care medical-surgical nurses in taking the medical-surgical nurse certification exam.

At the end of program, participant will be able to:

- Describe nursing assessments to be made in the care of patients with multisystem issues, endocrine, GI, musculoskeletal, neurological, hematological, immunological disorders, cardiac/vascular disease, pulmonary disease, genitourinary and renal disorders.
- Identify interventions or treatment modalities to prevent or manage patient with multisystem issues, endocrine, GI, musculoskeletal, neurological, hematological, immunological disorders, cardiac/vascular disease, pulmonary disease, genitourinary, and renal disorders.
- Review professional organization's standards of nursing practice in the care of the adult patient with medical-surgical conditions.
- Discuss ethical, legal and psychosocial issues affecting the care of the adult medical-surgical patient.
- Describe test taking tips to use in taking the certification exam.
- Identify various resources that are available and useful in preparing for the certification exam.
